

YEAR 12 2008

STUDENT DESTINATIONS

Queensland Academy for Creative Industries

Introduction

This report is based on the findings of the Queensland Government *Next Step* survey, which targeted all students who completed Year 12 and gained a Senior Statement in 2008, whether they attended a Government, Catholic or independent school, or a TAFE secondary college. The Office of the Government Statistician conducted the survey between 30 March and 6 May 2009, approximately six months after the young people left school. Responses were predominantly collected via computer-assisted telephone interviewing with a paper-based survey collected from a small number of students for whom telephone details were not available.

The statewide and regional reports of the *Next Step* survey can be located at the *Next Step* website at www.education.qld.gov.au/nextstep

Response rate for Queensland Academy for Creative Industries

Table 1 below reports the response rate for Queensland Academy for Creative Industries. It expresses the number of respondents from this school, as a percentage of all Year 12 completers attending Queensland Academy for Creative Industries in 2008.

It has not been possible to ascertain how representative these responses are of all students at this school.

Table 1 Survey response rate

Number of respondents	Number of students who completed Year 12	Response rate (%)
31	42	73.8

Definitions of main destinations

The pathways of Year 12 completers were categorised into ten main destinations. Respondents who were both studying and working were reported as studying for their main destination. A table defining these categories can be found in the statewide report at www.education.qld.gov.au/nextstep

Summary of findings

In 2009, 77.4 per cent of young people who completed their Year 12 at Queensland Academy for Creative Industries in 2008 continued in some recognised form of education and training in the year after they left school.

The most common study destination was university (58.1 per cent). The combined VET study destinations accounted for 19.4 per cent of respondents, all of which were in campus-based VET programs, with 9.7 per cent of Year 12 completers entering programs at Certificate IV level or higher.

There were no respondents from this school that commenced employment-based training.

In addition to the above study destinations, a further 6.5 per cent of respondents from this school deferred a tertiary offer in 2009 (deferrers are shown in Figure 1 in their current destination).

22.6 per cent did not enter post-school education or training, and were either employed (12.9 per cent), seeking work (6.5 per cent) or neither studying nor in the labour force (3.2 per cent).
